

## Results of survey of language learning needs for our local community

The two most popular languages for evening class tuition were French and Spanish, with Italian being the third most popular choice.

Chinese, German and Japanese had an equal number of requests each, but this was in single figures.

By far and away the main reason people wanted to learn was for pleasure as opposed to business.

The most popular time-slot was 6.00-7.30pm, but quite a few would like it later still.

Nearly all respondents would prefer a taught class as opposed to using the language lab for independent learning.

The majority of potential learners would be happy to travel to South Wolds for their language classes.

### As a result of this survey we would like to offer the following:

French and Spanish and classes from 6.00-7.30pm on a Wednesday evening, starting on 24<sup>th</sup> February. Please ring the school or call in at reception to register your interest.

There will be a family learning Italian class, on a Saturday afternoon, starting in the summer term.

The emphasis of these classes will be on conversational French, Spanish or Italian, to enable participants to get by in that language whilst on holiday in these countries.

Depending on the success of these courses and the demand from participants, we can then look at offering more advanced courses.

Thank you to all who completed the questionnaire, it has been most helpful.
