

The South Wolds  
Academy  
and Sixth Form

8<sup>th</sup> January 2021

Dear Parent/Carer,

## NHS Test and Trace: COVID-19 testing for Staff and Students

You may have heard that testing for those without coronavirus symptoms is beginning across the country using new, quicker COVID-19 tests known as 'lateral flow devices'. This letter is to help give you more information about the testing programme in our school.

Up to one third of people who have coronavirus are asymptomatic. By testing we will help to reduce the spread in school and college settings through asymptomatic transmission. I am therefore strongly encouraging those returning to school to be tested. Anyone who is 16 years or above can give their consent to be tested. For those students who are below the age of 16, a parent or legal guardian must give their consent.

[Please click here to complete the consent form.](#)

***Any student under the age of 16 must have their consent given by a parent or legal guardian.***

### Plan for testing

We will be looking to test all staff and secondary school and college age students as they return after the Christmas break, with the first tests being administered from the week beginning 11<sup>th</sup> January 2021.

In addition, any staff member or student who has come into contact with positive cases in our school can be tested daily for seven school days to allow them to remain on site. Initially, this will be the students who are attending provision as the children of key workers and vulnerable children.

### How the tests work

Those taking the test will be supervised by trained staff and volunteers. The lateral flow tests are quick and easy to undertake, using a swab of the nose and throat. Results (which take around half an hour from testing) will be shared directly with the individual participant. The South Wolds Academy and Sixth Form will inform the student of a positive test result. Where participants are under 16, parents or legal guardians will also be informed. The student will also receive a text/email notification of a positive or negative result from the online NHS system. Tests are provided free of charge. An [instructional leaflet](#) from the government also gives further information about taking the test.

Deputy Head Teachers

### **What if my child tests positive?**

If a pupil tests positive on a lateral flow device, they will be informed immediately by The South Wolds Academy and Sixth Form and will need to take a further 'PCR test' to confirm the result. This should be on the same day or as soon as possible afterwards. South Wolds will be able to provide these PCR test kits to perform at home although you can register on line at [www.gov.uk/get-coronavirus-test](https://www.gov.uk/get-coronavirus-test) for a test or call 119 if you wish to arrange this yourself.

During the time while waiting for the PCR result (via text/email) they will need to self-isolate.

If the PCR test returns a positive result they will have to continue to self-isolate and follow the guidance from NHS Test and Trace.

### **What happens if the test is negative?**

While a small number of pupils may need to repeat the test if the first test was invalid or void for some reason, pupils who test negative will be able to stay in school and resume their activities as normal. Pupils will be informed of negative test results via text/email. Where participants are under 16, parents or legal guardians will also be informed.

### **What if staff or students have been in close contact with someone in school who tests positive?**

The staff member or student will be notified that they are a close contact by the school. If close contacts agree to be tested each day for a maximum period of 7 school days, and they test negative every day, they will be allowed to remain in school. There may be instances where close contacts are also contacted by NHS Test and Trace. In this instance they should notify NHS Test and Trace that they are a close contact through school and are participating in daily contact testing.

### **What if my child develops symptoms?**

This testing programme at The South Wolds Academy and Sixth Form is for people with no symptoms. If your child develops symptoms at any time (including a high temperature; a new, continuous cough; or a loss or change to their sense of smell or taste) they must immediately self-isolate, and book a test by calling 119 or visiting <https://www.gov.uk/get-coronavirus-test>.

We will support our staff and pupils throughout, but please contact us if you have any questions. You can contact the office by emailing [office@southwolds.notts.sch.uk](mailto:office@southwolds.notts.sch.uk)

Yours sincerely

Halina Angus  
Head Teacher
