

Year 8: Fantastic Places

Lessons:

- L1: Introduction
- L2: Stonehenge
- L3: Stonehenge Improvement
- L4: Svalbard
- L5: Why visit Svalbard
- L6: Feedforward
- L7: Death Valley
- L8: Sliding rocks of Playa
- L9: Great Barrier Reef
- L10: Great Barrier Reef
- L11: Pacific Ocean
- L12: Sustainability

Broad overview:

This series of lessons takes whistle stop tour to some of the Fantastic Places on our planet. We look at physical and human features and the processes that made them possible.

We also consider what some of these may look like in the future and ask whether they are worth investing in and protecting for future generations.

Assessment:

- Mid Unit assessment: Why visit Svalbard
- Enf of Unit Test

Keywords

sustainable, fantastic, protect, future, Seedbank, historical, wonder, awesome, phenomenon, desert, ancient, cultural, respect, landscape, wildlife, traffic, pollution, tourism, overuse, climate, climate change, adventure, location, distribution, threats, protection, development, impacts, solutions.
