are given to help you. Only use the examples that are relevant to you. Please add any ideas that are special to you.

Developing Friendships

Starting a new school brings lots of opportunities to make new friends, but meeting so many new people can be overwhelming. How do you get to know people and build new friendships?

Meeting new people

You will have a new tutor group, that you will see once a day in the morning during registration. Your tutor will help you get to know everyone in your form.

In your lessons, you will be sitting and working with different people in different subjects. This gives you lots of opportunities to meet new people.

You could also join a club, or after school activity, which will help you meet new people who have similar interests to you.

What are your interests?

Starting a conversation

- Smile
- Ask questions to find out what you have in common
- Listen to what other people are saying to you
- Most of all, remember to be yourself

Write down something about yourself that you might share with someone new

Keeping in touch with old friends

It's okay to spend time with new people; it doesn't mean you like your other friends less.

Arrange to meet friends in different classes at break or lunchtime, or travel to school together

Some friends might not have moved to the same school as you, but that doesn't mean you can't keep in touch.

Feelings about transition

You probably have lots of feelings about moving from Primary to secondary school. Take some time to record them below.
